

SpaceTech is a growing medium sized enterprise focused on the development of space systems, from small satellites to optical instrument and a range of satellite equipment. From our headquarters in Immenstaad at Lake Contance, Germany, we offer our international customers our products and services for their space missions.

Due to our growing mechanical department, we are hiring new employees to strengthen our solar generator team.

Mechanical Parts Procurement (m/f/d)

Your Tasks

- Design support with respect to manufacturing demands
- Preparation of design documentation
- Preparation of manufacturing and assembly drawings
- Discussion with part suppliers regarding technology, cost, and schedule
- Incoming inspections especially dimensions and tolerances check
- Providing support to proposals

Your Skills and Experience

- Bachelor or master's degree in mechanical engineering or related disciplines or equivalent job experience
- Proficiency in CAD Systems, preferably Solid Works
- Hands-on knowledge of mechanical parts manufacturing would be helpful e.g., turning, milling...
- Systematic and independent working style
- Pro-active approach to problem solving, pragmatism, flexibility
- Team player, good communication skills
- Fluent in German – good knowledge of English would be an advantage
- SAP basic knowledge would be an asset, but is not mandatory

We offer

- Varying development tasks in the area of high-end space technology
- Personal impact and development possibilities in flat hierarchies
- Profit sharing, company pension scheme, flexible home office rules and many more...
