

SpaceTech is a growing medium sized enterprise focused on the development of space systems, from small satellites to optical instrument and a range of satellite equipment. From our headquarters in Immenstaad at Lake Constance, Germany, we offer our international customers our products and services for their space missions.

Due to the intense growth in the area of solar generator production, we are hiring new employees to strengthen our team.

Software Engineer Factory Automation (m/f/d)

Your Tasks

- Collaborate across multiple domains within SpaceTech to develop software using diverse platforms and languages
- Specify and design software for factory automation, machine vision, and embedded systems
- Identify needs and coordinate/implement solutions at the process, hardware, and software levels
- Commission software projects in an interdisciplinary team
- Maintain and incrementally improve existing projects
- Document and test software projects using best practices
- Operate as a technical interface to external suppliers
- Participate in continuous internal process improvement
- Present technical topics, both internally and externally

Your Skills and Experience

- Degree in mechatronics, embedded systems, automation technologies or equivalent.
- Detailed knowledge of object-oriented, and embedded software design
- Experience in C# is an advantage
- Experience in machine vision software, particularly with MVTec HALCON, is a definite advantage
- Pro-active, and independent approach to problem solving, using pragmatism, and flexibility. Hands-on mentality.
- Team player with good organizational and communication skills within an international and interdisciplinary team
- Fluent in English – good knowledge of German would be a definite advantage

We offer

- Diverse and interesting tasks in the area of high-end space technology
- A creative work environment, with an expanding, young team of interdisciplinary space enthusiasts
- Personal growth and development opportunities with flat hierarchies
- Profit sharing, company pension scheme, flexible home office rules and much more...
